Senate subpoenas original bank records

The Senate, acting in conjunction with the Philippine Savings Bank (PSB) yesterday to produce the original records of accounts of Chief Justice Renato Corona in the name and for all the questions over the authenticity of the documents presented by the prosecution team.

On July 11, the 12th Senate President and 12th Chief Justice Renato Corona presented the original PSB records to the Senate. Corona said he was bringing the records to the Senate to show that he was not involved in the accounts of the PSB. He said that he was not involved in the accounts of the PSB and that he was not involved in the accounts of the PSB.

But he said that he was not involved in the accounts of the PSB and that he was not involved in the accounts of the PSB. He said that he was not involved in the accounts of the PSB and that he was not involved in the accounts of the PSB.

Bank manager denies link to Tupas

A witness in the impeachment trial of Chief Justice Renato Corona yesterday said that he had no link to the late President Ferdinand Marcos Jr. and that he was not involved in the accounts of the PSB.

Lawmakers oppose new SALN format

Lawmakers strongly opposed yesterday the new format of the Statement of Assets, Liabilities and Net Worth (SALN) for government appointees, which they said was unconstitutional and could expose public officials to harassment.

Bernabe declines Corona case

A Supreme Court (SC) spokesman yesterday said that Justice Antonio Bernabe does not need to file a motion to disqualify himself from handling the case of Chief Justice Renato Corona to try to impeach him.

Force majeure excuses trial witness

A witness in the impeachment trial of Chief Justice Renato Corona yesterday said that he was not involved in the accounts of the PSB and that he was not involved in the accounts of the PSB.

Ex-envoy arrested

The former Philippine Ambassador to the United States, Oscar S. Lopez, was arrested yesterday by the Philippine National Police (PNP) for alleged involvement in the accounts of the PSB.

Statement of Congratulations to
League of Cities of the Philippines Chairman and Caloocan City
Mayor Enrico "Recom" Echiverri
for transforming Caloocan into one of the most
"Business-Friendly Cities" in the country and for his good
governance that merited the
DILG Seal of Good Housekeeping Award

We, the stars of industry and major business investors in Caloocan City, salute **League of Cities of the Philippines** Chairman and Caloocan City Mayor Enrico "Bacon" Echiverri for his reform agenda that transformed Caloocan City into one of the most "Business Friendly Cities" in the country and for having been awarded the **Seal of Good Housekeeping** by the Department of Interior and Local Government.

We pride with satisfaction the consolidated total income of Caloocan City for year 2011 amounted to **3.4 BILLION PESOS**. This is 2 Billion Pesos (1.5 Billion Pesos) more than the revenue collected in 2004 when he first assumed office, representing an increase of 200%.

Despite the economic slowdown, we are proud that under Mayor Recarte's leadership, Colton City has achieved sound financial footing allowing it to embark on numerous programs and projects that redound to the greater benefit of small and large business owners alike. The dramatic rise in the number of registered business from the 8,000 businesses of the previous administration to the **10,080 new businesses** under his administration is a testament to Colton City's newfound distinction as a haven of business and trade.

It is no wonder that Calocan City was named by the World Bank and the IFIC as an award "Doing Business in the Philippines" study as one of the most "Business Friendly Cities" in the country for its streamlined business registration process. Moreover, the Department of Trade and Industry (DTI) recognized Calocan for being first city to connect to the Philippine Business Registry (PBR) online business registration.

We extend our heartfelt congratulations to Mayor Eklund, not only for the numerous awards and citations he has earned for Golden City these past seven years, but most especially for the tangible evidence of development and reform in infrastructure, revenue generation, public services, financial management, housing, environment and education in Golden.

Cebu City is our home and we are proud to be doing business with a city that keeps the interests of both Philippine business and labor at heart, thereby generating more jobs for our countrymen.

On the occasion of Calocan's 50th year as a city, we congratulate Mayor Recare and the people of Calocan! *Mabuhay!*

MANILA TYTANA COLLEGES

Formerly Manila Doctors College

A Member of the Metrobank Group

Deeply Rooted, Growing Strong The Metamorphosis of the Manila Tytana Colleges

By MARIE ANNE L. RAMOS

Dressed in the process of changing or in transformation, a "metamorphosis" is exactly what the Manila Tytana Colleges or MTC is going through. Founded during the 1970 anniversary of Manila Doctors Hospital (MDH) as MTC and under the name MDH School of Nursing, it is one of the best schools in the country that offers a prominent nursing course.

Enduring success in positioning top-notch nurses through its curriculum and training, the institution was ready to take on new challenges. Its strategic plan, aligned to the national curriculum, calls for an expansion from its Manila Doctors College (MDC) into nursing, health care and business, to prepare its future graduates for the 21st century.

The College produced dedicated and capable nurses, and consistently posted above average passing rates in the Nursing Licensure Exam. On January 14, 1998, the school was renamed Manila Doctors College or MDC, having been elevated to the status of college because of its exceptional offerings such as Bachelor of Science in Public Health, Bachelor of Science in Dietetics and a five-year bachelor course in Pharmacy.

The MDC is proud to offer the Bachelor of Science in Public Health, a college course that is a first of its kind in the Philippines, combining both a health and public health education. In 2000, the Bachelor of Science in Dietetics and Nutrition Management was added to the curriculum. In 2001, the Bachelor of Science in Information Technology was opened as well. In a span of a few short years, the College started to expand its horizon and offered more courses that are aimed at nurturing professionals from various sectors such as health care, business, and education.

In a changing landscape, the Manila Doctors College continued to transform, adapting to the changing times and demands. In 2003, the College launched a change in branding through design. It is a move to create a more modern, professional, and healthy-looking environment for its students and faculty.

The MDC is a member of the Metrobank Group, a financial institution that has been a part of the Philippine business scene since the 1970s. The Metrobank Group is a member of the Metrobank Group, a financial institution that has been a part of the Philippine business scene since the 1970s. Syria resumes heavy shelling of Homs

BAGDAD — Lethal mortar (potentially) attacks on Homs, a very active town in central Syria, resumed last night as the Syrian government, with assistance from the army, resumed heavy shelling of the city, which had been under a partial curfew since the start of the uprising. The Syrian government said it was shelling the city with mortars and heavy artillery to force the rebels to stop their attacks on the city.

A Syrian source who said the city was under a partial curfew since the start of the uprising, said the Syrian government was shelling the city with mortars and heavy artillery to force the rebels to stop their attacks on the city.

Israel blames Iran for series of Bangkok blasts

BANGKOK (UPI) — Israel accused Iran of staging a series of bombings in Thai hotel that resulted in five deaths, after a Bangkok series of explosions and in the capital of Iran, Tehran, in October.

Authorities in Israel said they are not sure if the bombings were related to the Iran nuclear program, but they are sure they are not random acts of violence.

On Monday, Israeli officials said a series of bombings in Bangkok, Thailand, were related to the Iran nuclear program, but they are not sure they are not random acts of violence.

Toronto goes Linsane on Valentine's Day

TORONTO—Timothy "Linsane" slammed into hockey and Canada with the kind of a winter storm in Canada as Jimmy Lin, the National Basketball Association (NBA) power forward and basketballer with a members Day and in the league's most northern outpost.

A game between two teams would be a complete story in itself, but the Toronto Raptors' home game against the New York Knicks on Wednesday night was a special event.

The Raptors' home game was a special event as the team's first game since the arrival of the new head coach, Dwaine Casey, who was named head coach of the team on Monday.

OFW inflows hit record \$20.12 B in '11

Peso-Dollar Rate

US\$1 = ₱42.640

Remittances from overseas Filipinos reached a record high of ₱20.12 billion in 2011, a 1.4 percent or \$4.24 billion higher than the \$19.74 billion in 2010, the Bangko Sentral ng Pilipinas (BSP) reported yesterday.

BSP office in charge Juan de Dios de Aldecoa said the projected 2012 remittance to a 1.4 percent increase in inflows from 2011, which will be a 5.4 percent increase from last year's record.

De Aldecoa said based on the BSP's 10 percent annual increase in 2012.

By Leticia S. Llaneta

"Remittances remained robust throughout the year and the principal reason for this was the Middle East and South Asian (MESA) states, the destination of which accounts for 40 percent of the total remittance inflows," he said.

The BSP added that the increase could be attributed to the increased remittance and sale of overseas Filipinos, the strategic inflows in high and low-risk service sectors, and the global as well as the new regional production and supply chains centered around the economic

market.

This record inflow was recorded, calculated the age of remittance inflows, remittance volume, remittance inflows, and remittance inflows, which is up by 1.4 percent to 5.12 billion US\$.

The BSP also said major remittance inflows include the US, Canada, South Africa, United Kingdom, Spain, United Arab Emirates, Japan, and Germany.

The Philippine Overseas Employment Administration (POEA) reported that remittance inflows in 2011 hit a record of \$20.12 billion, up from \$19.74 billion in 2010.

Experts bat for new 'sin taxes' to address NCDs

By ENRIKA CRONKSON

Smoking, drinking and eating fatty foods are among the leading causes of non-communicable diseases (NCDs), a group of chronic diseases that include heart disease, cancer, diabetes, and stroke.

In a new report, the World Health Organization (WHO) has called for governments to consider "sin taxes" on products like tobacco, alcohol, and sugary drinks to help reduce NCDs.

The report, titled "The World Health Report 2002: Reducing the Risks of Non-Communicable Diseases," says that NCDs are the leading cause of death and disability worldwide.

The report also says that NCDs are preventable and that governments can take action to reduce their risk. It calls for a "package of measures" to be implemented, including sin taxes.

For the past three years, smoking

has been the leading cause of death in the Philippines. In 2000, the World Health Organization (WHO) reported that 100,000 people died from smoking-related diseases in the Philippines.

The report also says that NCDs are preventable and that governments can take action to reduce their risk. It calls for a "package of measures" to be implemented, including sin taxes.

PHOTOGRAPHY: JAMES R. HARRIS. A group of people, including children, are gathered around a large, dark, irregularly shaped object, possibly a piece of equipment or a large rock, in an outdoor setting. Some people are looking at the object with interest, while others are standing nearby.

A simple lesson in bioenergy arithmetic

In an article published in 2004 in *Environmental Science and Technology*, James Hansen, a leading climate scientist at NASA, and his colleagues estimated that if all of the world's energy needs were met by bioenergy, the world would need to plant 1.5 billion hectares of land.

STAR SCIENCE

By RAYMOND H. TAY, Ph.D.

It's a simple lesson in bioenergy arithmetic. In 2004, a group of scientists estimated that if all of the world's energy needs were met by bioenergy, the world would need to plant 1.5 billion hectares of land. This is a simple lesson in bioenergy arithmetic. Strong bones, stronger ties

It's not just a burp — it's a study of light in the *Southphoenix* thing says so, says a study. It's not just a burp — it's a study of light in the *Southphoenix* thing says so, says a study. It's not just a burp — it's a study of light in the *Southphoenix* thing says so, says a study.

Hugo: Scorsese's first family film

Coming to an area near you, *Hugo* (PG) is the story of a young Martin (Benjamin L. Boyer) who lives in a clock tower in the heart of Paris in the 1930s. He is an orphan, and his father, who is a clockmaker, died in a train accident. He is a lonely boy, and he is often seen in the streets, looking at the clock faces and the people who pass by. He is a curious boy, and he is often seen in the streets, looking at the clock faces and the people who pass by.

Hugo plays the role of a young boy who lives in a clock tower in Paris in the 1930s.

Scorsese says that *Hugo* is a family film, and it is a film that is for everyone. He says that *Hugo* is a film that is for everyone, and it is a film that is for everyone. He says that *Hugo* is a film that is for everyone, and it is a film that is for everyone.
